

Ocean Fintech

**We invest in growing
businesses**

A new way to finance imports,
cargo and the supply chain
across the globe.

**We invest upto US\$10M in
growing companies
US\$100k - 10M**

Who is OCEAN?

OCEAN is a fintech based in London, New York, Singapore, and Hong Kong

- ✓ OCEAN provides trade credit and is a trading partner for SME's.
- ✓ We are NOT a bank, lender or factoring company
- ✓ We provide logistics & finance support to SMEs by purchasing goods in cash, and re-selling on credit.
- ✓ We serve as a global cross-border trading partner helping SME's with their imports, inventory, purchase orders and supply chain.

The Problem

Small businesses have limited access to cross border trade finance

- Suppliers want cash upfront
- SMEs have limited capital access, despite serving as the growth engine of the world economy
- Large multinationals have access to finance through banks and the public markets
- SME capital can be parked in the supply chain which results in low product levels and lost business
- Cash cycles for overseas import of goods extend up to 6-mths slowing shipping, marketing, and sales as well as the collection of customer payments

The Solution

Partner with OCEAN

With OCEAN you can:

- ✓ Import your goods from overseas on credit just like MNC's
- ✓ Improve your cash conversion cycle
- ✓ Receive working capital within days
- ✓ Choose from two easy product options
 - Open Credit
 - Stock & Release
- ✓ Pay a small fee + markup and repay in 30-120 days
- ✓ Position your business better vs. larger-sized competition
- ✓ Grow your trade volumes with an experienced partner

Eligibility Criteria

Who qualifies to work with OCEAN?

To be eligible, companies need to:

- ✓ Have at least US\$ 750,000 in annual revenues
- ✓ Maintain good credit history
- ✓ Deal in physical goods (Fashion, Consumer Goods, etc)
- ✓ Be located in US, UK, EU, AU, NZ, CA, SG or HK
- ✓ Have at least 6-12 months runway

Products

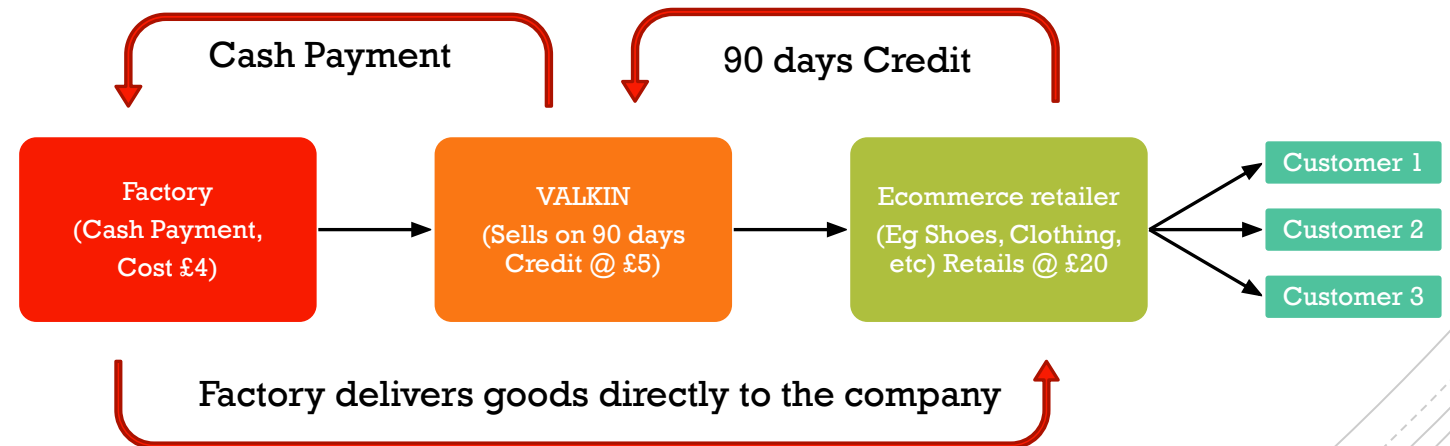

Hardware

Product 1 Open Credit

For Customers WITH credit insurance

B2C Ecommerce/Inventory Finance/PO Finance/Import Finance

- We provide qualified customers trading limits where we purchase the raw material, stock, inventory and sell it to them on 30-120 days credit. That gives SME's time to market, sell, collect payments and pay from the proceeds easing their cash flow and supply chain process.
- When you run a retail store, online store, etc a lot of capital gets stuck in inventory and supply chain. Constantly running out of inventory leads to lost business. The more you grow, the more cash you will need. We finance inventory and will increase the facility as the business grows.

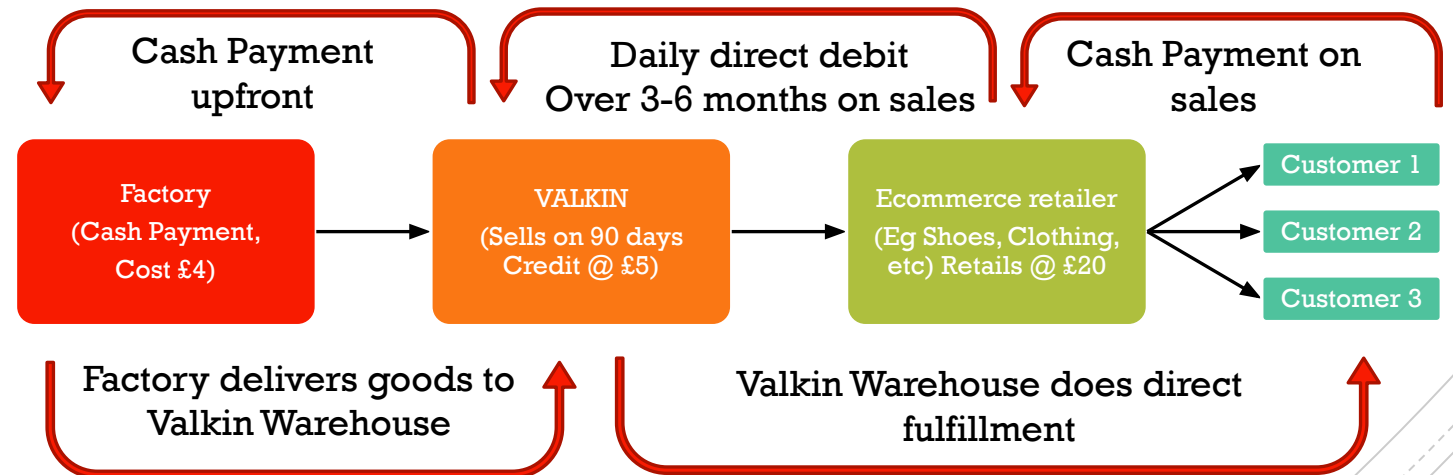

Product 2 Stock & Release

For Customers WITHOUT credit insurance

B2C Ecommerce/Inventory Finance/PO Finance/Import Finance

- We provide qualified customers upto 70% finance where we purchase the raw material, stock, inventory. We store, fulfill and share revenue on a direct debit basis. That gives SME's time to market, sell, collect payments and pay from the proceeds easing their cashflow and supply chain process.
- SME's store their products in Ocean's fulfillment centers, and we pick, pack, ship, and provide customer service for these products. FBO can help SME's scale their business and reach more customers.

Thank You
